

WATER IMAGES

A **water image** is the reflection of an object into water. It is the vertically inverted image obtained by turning the object upside down. The water image of the figure looks like the mirror image of the figure when the mirror is placed horizontally at the bottom of the question figure. It's called a "water Image". i.e.

As we see all the part of image become reverse in water image. Here are different types of water images

- Letter / Number images.
- Geometrical images.

TYPE 1:- Letter / Number Images: Here we are showing every single letter with water image

Water Images of Capital Letters

Water Images of numbers Letters

Note: 0, 3, and 8 numbers have the same water images.

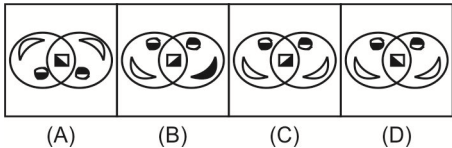

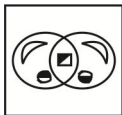

TYPE 2:- Geometrical Images

In these type of question we deal with figures taking defined geometrical shapes. let's have some examples.

Examples

In each of the following questions you are given a combination of alphabets and/or numbers followed by four alternatives (a), (b), (c) and (d). Choose the alternative which is closely resembles the water image of the given combination.

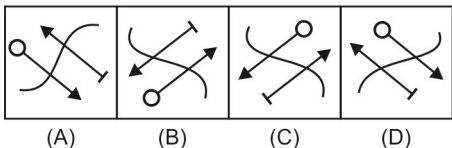

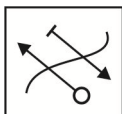

Q1.

Solution:- in these question we saw just up shift to down ,down shift to up.

And answer will be(4).

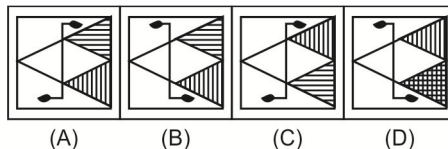

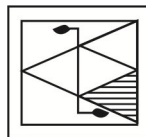

Q2.
