DIRECTION (Q. 16-25):- Read the passage given below and then answer the questions given below the passage.

Once upon a time a farmer, Gopi, lived in a village. He had few acres of land. One hot afternoon, the poor farmer was digging his field. All of a sudden, his spade hit something. Then he continued his digging. "It is a big metal pot," said Gopi. It was big enough to boil rice for more than hundred people. "It does not seem to be of any use to me. I will dig deeper. Maybe I will find something else," thought Gopi. He continued to dig. After he had dug for a long time, Gopi felt tired. "It is of no use. There is nothing in this field" he thought. Then at once, he threw the spade into the pot in frustration and sat under a tree to take rest for a while.

After a while, when he got up to leave, he could not believe his eyes. There were one hundred spades in the pot. "This is a magical pot. I will put this mango inside the pot and see what happens," Gopi thought. Then Gopi put a mango into the

pot. To his astonishment, he found one hundred mangoes in the pot. Gopi carried the pot to his home and kept in a secret place so that no one would become aware of it.

After that, he put many things in that and everything became hundredfold. When he put a single coin in it, he found a hundred coins. With that pot, he became a rich man. The King came to know of the pot and its whereabouts. The King was curious to know about it and he was a greedy King. "I want to find out the secret of the magical pot. If it is valuable, it should be in the King's treasury," the King thought. Then at once, the King ordered his men to bring the farmer and his pot.

When the magic pot was brought to the King's chamber, he did not know what to do. The King thought, "Let me see what is there inside this pot which makes this pot so magical?" He peered inside. Inadvertently, he slipped and fell inside the pot. When he climbed out of the magic pot, he was shocked to find that there were one hundred Kings. All the kings then started to climb the throne. They fought among themselves and died. The magic pot lay in the King's treasury. "The foolish King took away the magic pot from me out of curiosity and eventually he died. This magic pot has killed the King himself," said the farmer and in order to be safe, he left the magic pot at the treasury of the King itself, away from the world.

(E) Either bo or rd

73. What is the code for "invest time to work" in the given code language?
(A) sy bo mr fp (B) ta nj kw rd
(C) ta fp ux nj (D) mr sy bo ta
(E) ux ge nj sy

Directions (Q. 74-76):- Read the following information carefully to answer these questions.

- C + D means C is the daughter of D
C × D means C is the son of D
C - D means C is the wife of D

74. If $P \times Q - S$, which of the following is true?
(A) S is wife of Q
(B) S is father of P
(C) P is daughter of Q
(D) Q is father of P
(E) None of these

75. If $T - S \times B - M$, which of the following is not true?
(A) B is mother of S
(B) M is husband of B
(C) T is wife of S
(D) S is daughter of B
(E) S is son of B

76. In the expression $Q \times P - L \times M$, how is Q related to M?
(A) Son
(B) Grandson
(C) Granddaughter
(D) Cannot be determined
(E) None of these

77. Rani is younger than Suma. Sumathi is younger than Rani but elder than Amitha. Amitha's age is equal to Manasa. Who is older than only Rani?
(A) Amitha (B) Manasa

- (C) None (D) Suma
(E) Can't be determined

Directions (Q. 78-79):- In this question, the relationship between different elements is shown in the statements. The statements are followed by two conclusions, give answer.

78. **Statements:** $T < D \leq U$; $L > D \leq K$; $D \geq G$

Conclusions:

- I. $K \geq G$
II. $L > G$
(A) Only conclusion I is true
(B) Only conclusion II is true
(C) Either conclusion I or II is true
(D) Neither conclusion I nor II is true
(E) Both conclusions I and II are true

79. **Statements:** $H = E \leq W$; $C \geq W < S$

Conclusions:

- I. $C = E$
II. $C > E$
(A) Only conclusion I is true
(B) Only conclusion II is true
(C) Either conclusion I or II is true
(D) Neither conclusion I nor II is true
(E) Both conclusions I and II are true

80. Which of the following should replace the question mark so that $H > M$ is definitely true?

$$Z = Y > X \geq M \leq G ? L \leq H$$

- (A) = (B) >
(C) ≤ (D) <
(E) ≥

Directions (Q. 81-82):- In the following question assuming the given statements to be true, find which of the conclusion among given conclusions is /are definitely true and then give your answers accordingly.

81. **Statements:** $Z \leq L = M$; $X \geq S > L$; $Q > X = R$

Conclusions:

- I. $R > Z$

II. $Q \geq M$

- (A) None is true
- (B) Only I is true
- (C) Only II is true
- (D) Both I and II are true
- (E) Either I or II follows

82. Statements: $X < Y \leq A = I \geq M > N$; $O \geq L = E > A < D$; $B < S > I > R$

Conclusions:

- I. $X < L$
- II. $S \geq N$
- III. $O > R$
- IV. $B > N$

- (A) None is true
- (B) Only I and III are true
- (C) Only III and IV are true
- (D) Only I, III and IV are true
- (E) Only I is true

Directions (Q. 83-87):- In the question below are given four statements followed by four conclusions numbered I, II, III and IV. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

83. Statements:

- Some songs are palms.
- Some covers are palms.
- Some palms are real.

Conclusion:

- I. Some songs are real.
- II. Some cover are real.
- (A) None follows
- (B) Only I follows
- (C) Only II follows
- (D) Both I & II follow
- (E) Either I or II follows

84. Statements:

- Most songs are pillows.
- Few pillows are nests.
- Every nest is frog.
- No frogs are goats.
- Every goat is doll.

Conclusions:

- I. No frog is doll.
- II. All frogs can be songs.
- III. No nest is doll.
- IV. Some songs are frogs.
- (A) Only IV follows
- (B) Only II follows
- (C) Only III follows
- (D) Only II and IV follow
- (E) All follow

85. Statements:

- All beans are cups.
- Few cups are toys.
- 99% toys are cats.
- Some cats are not dogs.
- Each dog is king.

Conclusions:

- I. All cats can be kings
- II. Some cups are cats
- III. All dogs can be beans
- IV. No cup is king
- (A) None follows
- (B) Only I & III follows
- (C) Only III & IV follow
- (D) Only II & III follow
- (E) None of these

86. Statements:

- Some dogs are dolls.
- Some dolls are zoos.
- No dog is film.

Conclusion:

- I. No doll is film
- II. Some dogs are zoos
- (A) None follows
- (B) Only I follows
- (C) Only II follows
- (D) Both I & II follow
- (E) Either I or II follow

87. Statements:

- III. No pot is a bus.
- IV. No road is pepper.
- (A) None follows
- (B) Only I follows
- (C) Only I and III follow
- (D) Only II and IV follow
- (E) Only I, II and III follows

Directions (Q. 88-90):- Read the following information and answer the given questions

A, B, C, D, E, F, G and H are sitting around a square table facing the center in such a way that four of them sit at four corners of the square table while four sit in middle of each of the four sides. A sits second to the right of F, who sits in the middle of one of the sides of the table. G, who doesn't sit at any corners of the table sits second to the right of D. Only two people sit between D and B. C is not an immediate neighbor of G. H sits second to the left of B. E is not

an immediate neighbor of either G or F.

88. Who sits exactly between F and A?

- (A) B
- (B) C
- (C) E
- (D) H
- (E) Can't be determined

89. How many persons sit between A and H when counted in anti → clockwise direction from A?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) Four

90. What is the position of F with respect to C?

- (A) Third to the left
- (B) Immediate right
- (C) Second to the left
- (D) Third to the right
- (E) Immediate left

Directions (Q. 91-95):- Read the following information and answer the given questions.

Eight people A, B, C, D, E, F, G and H are sitting in a straight line facing North. Each of them has passed a recruitment exam and must join the office in different months, viz January, February, March, April, May, June, July and August but not necessarily in the same order.

G sits third to the right of the person who joins in May. The person who joins in August sits second the right of G. Neither A nor E has joining dates in either May or August. A and E are immediate neighbors of each other. Neither A nor E is an immediate neighbor of G. H sits third to the right of the person whose joining date is January. Neither A nor E has joining dates in January. H's joining date is not in August. Only two people sit between E and the person whose joining date is in July. The person, whose joining date is in February sits on the immediate left of D. Only one person sits between E and B. C joins before July. E joins after April. G joins After A.

91. In which of the following months does H join the office?

- (A) April
- (B) June
- (C) July
- (D) February
- (E) March

92. Who among the following sits exactly between E and B?

- (A) The person whose joining date is in May

- (B) The person whose joining date is in January
(C) D
(D) A
(E) The person whose joining date is in August

93. Which of the following is true regarding D?

- (A) Only two people sit to the left of D
(B) D is sitting second to the right of the person whose joining is in July
(C) E and B are immediate neighbors of D
(D) D's joining date is in May
(E) None of the Above

94. How many people sit between C and the person whose joining date is in April?

- (A) None (B) One
(C) Two (D) Three
(E) Four

95. Who among the following are sitting at the extreme ends of the line?

- (A) A and the person whose joining date is in August
(B) The person whose joining date is in May and E
(C) C and G
(D) The persons whose joining dates are in March and June
(E) None of these

Directions (Q. 96-100):- Read the following information and answer the given questions.

J, K, L, M, S, T, U and V are eight employees of an organisation and they will attend a meeting in the four months (March, June, October, November) in a year. The meeting held in each month on 13th and 22nd date. Only two meetings held in a month. Each of the employees has a distinct and favourite colour of choice ranging from Blue, Red, Yellow, White, Black, Pink, Green and Brown but not necessarily in the same order.

- (i) No person attends meeting after L. M attends the meeting in the month which has less than 31 days.
(ii) S, who likes red colour and U attend the meeting after M on date 22nd of different months.
(iii) The employees who attend first and last meetings in the year like Yellow colour and black colour respectively.
(iv) J and K attend the meeting before M, who likes White colour.
(v) The persons who like Pink and green attends the meeting in same month on dates 22nd and 13th respectively.
(vi) V doesn't attend the meeting in the month in which S attends or L attends.

- (vii) The employee who attends meeting on 13th November likes Blue colour. The person Who likes Brown attends the meeting after J in same month.

96. The employee, who likes Blue colour is -

- (A) J (B) V
(C) T (D) M
(E) None of these

97. V attends the meeting on

- (A) 13th of October
(B) 22nd of June
(C) 13th of June
(D) 13th of November
(E) None of these

98. The employee, who likes Red colour attends the meeting on

- (A) 13th of June
(B) 22nd of March
(C) 22nd of June
(D) 13th November
(E) None of these

99. The employee who attends the meeting before S in same month is

- (A) M (B) T
(C) L (D) U
(E) None of these

100. The employees who attend meeting in November are -

- (A) U, T (B) T, L
(C) M, S (D) U, V
(E) None of these
