**Explanation (73-77):**

**Pattern:**

- First numerical value = Square of the total number of letters
- Second
  - (i) If first letter of the word is vowel than we take preceding letter of the opposite of the first letter in the word.
  - (ii) If first letter is consonant than we take following letter of the opposite of the first letter in the word.

- Third = Number of letter between the first and last letter of the word in the alphabetical series

**Example**

ALWAYS = 36Y17

Total no. of letters = 6 then square is 36.

First letter is vowel then we take preceding letter of the opposite of the first letter in the word.

No. of letters b/w first & last letter is 17.

4. 22&E
5. None of these

**Ans92.** 3.23#D

**Explanation (88-92):**

1. Numerical value coding based on the following patter:

(a) If there are 'even' no. of letters in a word then two middle letter's place value is added.

(b) If there are 'odd' no. of letters in a word then middle letter's place value is taken.

**For e.g.** (a) In word 'Even' no. of letters is 4 then middle letters are v & e, so numerical value is 22+5 = 27.

(b) In word 'order' no. of letters is 5 then middle letter is 'd', so numerical value is 4.

2. Symbols codes will be represented by the following table:

No. of vowels	Symbols
1	@
2	\$
3	&
4	%
5	#

**For e.g:** In word Alphabetical = there are 5 vowels, then the symbol for this word is #.

3. The letter in the code of each word is representing next letter of second letter of its respective word in the alphabetic series.

**For e.g:** In word 'Counting' , second letter is 'O' then next letter after O is P. So, the letter coding for the word 'counting' is 'P'.

2. cz
3. ka
4. Either (1) or (2)
5. Either (1) or (3)

**Ans93.** 5. Either (1) or (3)

 can/ win = za / ka  
 noise= sx  
 make= fz  
 create/problem= lv/ cz

**Q94.** If "college authority permits" is coded as ' sx ft rl' and " they permits rules" is coded as ' ny aq ft' and " rules was followed" is coded as " 'lx cz aq' then what is the code for " "they was followed"?
