Today's Important News

India ranks at 144th spot in 2023, sees the largest global drop

1. India ranks at 144th spot in 2023, sees the largest global drop

- The Passport Index published its latest update, revealing that India's Mobility Scores has fallen. India experienced the largest global drop on the Index this year. It fell from a mobility score of 71 ahead of the pandemic in 2019, rising to 73 in 2022 as it rode the post-pandemic wave of increasing mobility. As of March 2023, its mobility score sits at 70.
- This fall comes off the back of record increases in mobility as the world and national economies re-opened after the pandemic. India's ranking has fallen by six places so far this year, now individually ranked 144 in 2023 as opposed to 138 in 2022.
