

**QUANTS**

1. Rs. 42482, are divided between A and B in the ratio 7 : 4. What is the difference between twice the share of A and thrice the share of B?

- (1) Rs. 16,699 (2) Rs. 9,893  
(3) Rs. 10,097 (4) Rs. 6,796  
(5) Rs. 7,724

2. Find the greatest number of 4 digits that has 100 as it's HCF ?

- (1) 9000 (2) 3300  
(3) 9900 (4) 10000  
(5) 9996

3. A Truck crosses a man who is walking at a speed of 12 km/hr. The man has a visibility range of 800m. If the man can see the Truck in his direction for 4 more minutes then calculate the speed of the Truck.

- (1) 15 km/hr (2) 17 km/hr  
(3) 20.6 km/hr (4) 24 km/hr  
(5) 30.5 km/hr

4. A contractor undertakes a contract to complete a building in 50 days with 30 men. He worked 20 days with 30 men. With how many men, he should work to complete the remaining contract in 10 days early?

- (1) 54 (2) 45  
(3) 47 (4) 49  
(5) None of these

5. Ram purchased 450 Apples of 3 types such that he earned a profit 9%, 10% and 12% respectively on each type. He earned a profit of  $9\frac{3}{7}\%$  on first two types and 10% overall profit on all the types. Find the number of Apples in all the three types.

- (1) 200,150 and 100 (2) 300,150 and 156  
(3) 100,200 and 250 (4) 100,300 and 150  
(5) None of these

6. A shopkeeper buys an article for Rs. 2000. He marks to sell the article at such a price as to get 80% profit on his cost. Now, he provides a discount of 15%, find the actual profit% made by the shopkeeper.

- (1) 62% (2) 63%  
(3) 52% (4) 53%  
(5) 54%

7. In a 500 metre race, A runs at 5 m/s. 'B' is already 128 meters ahead of 'A' when the race starts. If 'B' beats A by 7 seconds then what is B's speed?

- (1) 3 m/s (2) 2.5 m/s  
(3) 3.5 m/s (4) 2 m/s  
(5) 4 m/s

8. A shopkeeper is marketing his goods 20% above the cost price of the goods. He gives 20% discount on cash payment, find his gain or loss percent ?

- (1) 4% (2) 8%  
(3) 3% (4) 18%  
(5) None of these

9. A man while sailing his boat downstream takes 3 hours for 48 km while sailing upstream takes 6 hours for same distance. What is the speed of boat?

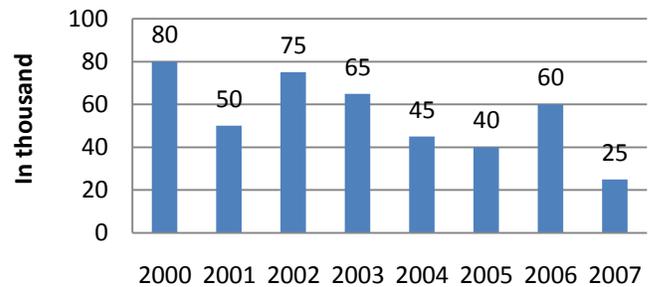

- (1) 18 kmph (2) 14 kmph  
(3) 20 kmph (4) 15 kmph  
(5) 22 kmph

10. A is 45.45% more efficient than B. B can do a certain work in 54 days. In how much time both of them can complete the same work?

- (1) 51 days (2) 38 days  
(3) 22 days (4) 15.6 days  
(5) None of these

**Directions (Q. 11-15):- Study the following bar graph and answer the following questions given below.**

**Sales of Apple company in 8 years**

11. The ratio of the number of years for which the sales are above the average sales over the years to the number of years for which the sales are below the average sales over the years is

- (1) 2 : 1 (2) 1 : 2  
(3) 1 (4) 3 : 2  
(5) None of these

12. In which year was the percentage decrease in sales maximum as compared to the previous year?

- (1) 2007 (2) 2004  
(3) 2005 (4) 2003  
(5) None of these

13. What is the ratio of the average sales of 2000 and 2007 to the average sales of 2003 and 2004?

- (1) 55/52 (2) 52/55  
(3) 22/21 (4) 21/22  
(5) None of these

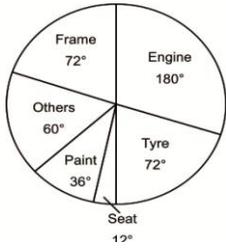

14. The average sales of 2001 and 2002 was exactly equal to the average sales of which of the following pairs of years?

- (1) 2003 and 2004 (2) 2000 and 2005  
(3) 2004 and 2006 (4) 2000 and 2004  
(5) None of these

15. What is the percentage decrease in the sales of TVs over the years?

- (1) 45.45% (2) 220%  
(3) 68.75% (4) 145.45%  
(5) None of these

**DIRECTION (Q. 16-20):- The given pie chart shows the expenditure (in degrees) incurred on making a motorcycle.**

16. If the total expenditure incurred is Rs 60000, then what is the expenditure on seat?

- (1) 12000 (2) 3000  
(3) 6000 (4) 2000  
(5) None of these

17. If the expenditure incurred on tyres is Rs 15000, then what is the expenditure incurred on painting?

- (1) 30000 (2) 8000  
(3) 7500 (4) 6000  
(5) None of these

18. Expenditure incurred on others is how much percent more than the expenditure incurred on paint?

- (1) 24 (2) 40  
(3) 66.66 (4) 57.33  
(5) None of these

19. The expenditure incurred on seat is how much percent less than the expenditure incurred on tyres?

- (1) 83.33 (2) 66.66  
(3) 78.22 (4) 85.33  
(5) None of these

20. If the expenditure on tyres is Rs 10000, then the expenditure on paint is how much more (in Rs) more than the expenditure on seat?

- (1) 2733.33 (2) 3333.33  
(3) 3122.22 (4) 3555.55  
(5) None of these

**REASONING**

**Directions(21-23): Study the following information and answer the questions given below:**

There are AB axis in such a way that A is in north and B is in south direction. There is XY axis in such a way that X is in west direction and Y is in east direction. AB axis and XY axis intersect at a point Q in such a way that AQ is 15m, QB is 17m, QX is 12m, QY is 24 m.

Mr. Z starts walking along the QX line towards Q from X and after walking 4m he takes a left turn and walks for 6m to reach point S. Mr. L starts walking in the south direction from Y and walks 4m to stop at point K. Mr. D walks towards Q from A and walks for 8m and takes a left turn and walks for 3m to reach point I. Mr. M starts walking in the north direction from point B and walks for 13m and then takes a right turn and walks for 3m to reach point N.

21. What is the shortest distance between point S and point N?

1.  $\sqrt{231}$  m (2)  $\sqrt{221}$  m  
3.  $\sqrt{211}$  m (4) 13 m

5. None of these

22. How far and in which direction is point K with respect to point N?

1. 21m west (2) 24m west  
3. 22m west (4) 21m east  
5. 22m east

23. In which direction is point S with respect to Mr. M's final position?

1. Southeast (2) North  
3. Northeast (4) Southwest  
5. Northwest

**Directions(24-28): Study the following information carefully and answer the given questions.**

A word and number arrangement machine when given an input line of words and numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement.

Input: 36 sbvt tiud 25 core 13 plga 40 mnfx 39.

Step I: ujve 44 36 sbvt 25 core 13 plga mnfx 39

Step II: 35 tcwu ujve 44 36 25 core 13 plga mnfx

Step III: qmhb 40 35 tcwu ujve 44 25 core 13 mnfx

Step IV: 21 nogy qohb 40 35 tcwu ujve 44 core 13

Step V: dpsf 9 21 nogy qohb 40 35 tcwu ujve 44

Step V is the last step of the above arrangement.

As per the rules followed in the steps given above, find out in each of the following questions the appropriate step for the given input.

Input: jhfd 12 dvtr 28 25 glkc 11 fosa 31 nuer.

24. In which step number '27 jhfd 12' would be found in same order?

1. Step IV (2) Step I  
3. Step II (4) Step III  
5. There will be no such step

25. How many elements (words or numbers) are there between 'fosa' and '27' in the step III?

1. Two (2) Three  
3. Four (4) Six  
5. None of these

26. What is difference of the numbers which is third from the left end and fourth from the right end in the last step?

1. 32 (2) 11  
3. 16 (4) 9  
5. None of these

27. Which element is third to left of second from the right end in step IV?

1. kige (2) 29  
3. Ovfs (4) dvtr  
5. None of these

28. How many elements (words or numbers) are there between 'ovfs' and '25' in the step II?

1. Two (2) Three  
3. One (4) More than three  
5. None

29. The committee on sexual discrimination in the workplace has highlighted Mastero Company as a chief offender. Of the twenty senior executives in the firm, only one is a woman. And of the forty junior executives, only five are female.

Maestro could best defend itself against the charges by showing that  
I. male and female executives at the same level have the same qualifications  
II. They pay the same salary to senior men and senior women  
III. Ten times more men than women apply for jobs with the company  
IV. The work pressure and long hours make jobs with the company unattractive to married women  
V. all job applicants who were rejected had fewer qualifications than those accepted

1. Only II
2. Only I and III
3. Only III
4. Only V
5. Only III and II

**30.** Statement: Start to think of travelling by train for a holiday. A train journey can give one a better view of places on the way which an air journey cannot give. You can walk around whenever you want, meet other travelers and locals, relax and watch the landscape go peacefully by. Train travel is both a beautiful and affordable way to see the country, and no trip is more scenic than the trip by trains.

Conclusions:

- I. While going for a holiday, people want to enjoy the view of the places on the way.
  - II. People should not travel by air when they are going for a holiday.
- Which of the following can be concluded from the given statement?

1. Only I follows
2. Only II follows
3. Both I and II follow
4. None follows
5. Either I or II follows

**31.** Which of the following extends data across networks rather than store it in one central site?.

- (1) PIM
- (2) File manager
- (3) Distributed database
- (4) Data mining program
- (5) None of these

**32.** What is a serial port that adds a direct connection to a network?

- (1) FireWire
- (2) NIC
- (3) USB
- (4) Internal modem

**33.** What should be used if a company wants to include its company name and logo at the bottom of every page of a brochure?

- (1) Header
- (2) Macro
- (3) Footer
- (4) Footnote
- (5) None of these

**34.** is an event-driven programming language developed in the early 1990.

- (1) C
- (2) VB
- (3) C++
- (4) Pascal

**35.** Linux is a

- (1) Utility program for peer-to-peer file sharing
- (2) Real-time operating system
- (3) Network operating system
- (4) PDA platform
- (5) None of these

**36.** The runs the front-end applications software in a network.

- (1) Client
- (2) Database
- (3) Server
- (4) CPU
- (5) None of these

**37.** Which of the following is used for close a tab on a browser?

- (1) Ctrl + T
- (2) Ctrl + W
- (3) Ctrl + A
- (4) Ctrl + Y
- (5) None of these

**38.** '\_NORTON' is an

- (1) Software
- (2) Anti-Virus Program

(3) Network

(4) Program

**39.** A program that converts high level language to machine Language is

- (1) Linker
- (2) Assembler
- (3) Compiler
- (4) All of the above
- (5) None of these

**40.** Zip is a----- file.

- (1) Executable File
- (2) Compressed File
- (3) System File
- (4) Combo
- (5) None of these

**Directions(41-44):** Study the following information carefully and answer the given questions.

Seven friends viz. A, B, D, M, L, N and O lives on seven different floors of the same building. There are only seven persons living in that building. The building has twelve floors, bottom most floor is numbered as 1st, the floor above is 2nd, and so on till the topmost floor which is numbered as twelve. Each of them like a different animal viz. Sparrow, Pigeon, Squirrel, Deer, Mouse, Rabbit and Camel but not necessarily in the same order. The one who likes Deer live on an odd number floor. The one who likes who likes Rabbit lives Seventh floor. Only two persons live below the floor on which N lives. All the three floors below the one who like Camel are vacant. There are only two floors between the floors on which A lives and the floor on which N lives. A does not like Camel. M likes Sparrow and lives above A but not on odd number floor. D lives immediately above the floor on which the one who likes pigeon. B lives below the floor on which L lives and does not like camel. The one who likes Squirrel lives on an even numbered floor. A does not like Deer and Squirrel. There are only two floors between the one who likes Squirrel and the one who likes deer. B does not live on odd number floor. D does not live above A.

**41.** How many persons are living below L?

1. One
2. Three
3. More than five
4. Four
5. None of these

**42.** A likes which of the following animals?

1. Squirrel
2. Deer
3. Sparrow
4. Pigeon
5. None of these

**43.** Who among the following person like Rabbit?

1. A
2. N
3. L
4. B
5. None of these

**44.** Which of the following combinations of person-floor-animal is correct?

1. L – Eighth – Mouse
2. A – Tenth - Deer
3. N – Seventh – Rabbit
4. B – Tenth - Squirrel
5. None of these

**45.** Each of the questions below, consist of a question and three statements numbered I, II and III. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the three statements and Give answer

Some persons are sitting in a row such that all are facing in the north direction. Who among the following sits third to the left of M (less than 15 people sits in the row)?

I. M sits fourth to the right of A. Only two people sits between A and K. O sits on the sixth right of N

II. Only 2 person sits between N and D. M sits at the end of the row.  
III. D sits eighth to the left of K. B sits third to the right of O.

1. If the data in statement I and II together are sufficient to answer the question, while the data in statement III are not required to answer the question.

2. If the data in statement I and III together are sufficient to answer the question, while the data in statement II are not required to answer the question.

3. If the data in statement II and III are sufficient to answer the question, while the data in statement I are not required to answer the question.

4. If the data in all three statements I, II and III together are necessary to answer the question.

5. If the data in all the statements, I, II and III even together are not sufficient to answer the question.

**46.** Each of the questions below, consist of a question and three statements numbered I, II and III. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the three statements and Give answer

In the question given below two conclusions followed by three statements.

You have to choose the correct set of statements that logically satisfies the given conclusions

Conclusions: Some Rhombus is not Square.

No Ring are Rhombus.

Statements:

I. All Ring are Square. No Rhombus is rectangle.

II. All ring are square. Some square are Rhombus.

III. Only Rectangle are square. Some ring are circle.

1. If the data in statement I and II together are sufficient to answer the question, while the data in statement III are not required to answer the question.

2. If the data in statement I and III together are sufficient to answer the question, while the data in statement II are not required to answer the question.

3. If the data in statement II and III are sufficient to answer the question, while the data in statement I are not required to answer the question.

4. If the data in all three statements I, II and III together are necessary to answer the question.

5. If the data in all the statements, I, II and III even together are not sufficient to answer the question.

**47.** Each of the questions below, consist of a question and three statements numbered I, II and III. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the three statements and Give answer

Some students are sitting in a row such that all are facing in the north direction. How many persons are sitting in the row?

I. A sits fifth to the right of G, who sits seventh to the right of M. Two persons sits between D and A. M does not sits at the end of the row. A, sits at the end of the row.

II. D sits sixth to the right of B. B sits third to the right of M.

III. A sits seventh to the right of M. M sits at the end of the row. Three persons sits between O and A, who does not sit fifth place from any of the end of the row.

1. If the data in statement I and II together are sufficient to answer the question, while the data in statement III are not required to answer the question.

2. If the data in statement I and III together are sufficient to answer the question, while the data in statement II are not required to answer the question.

3. If the data in statement II and III are sufficient to answer the question, while the data in statement I are not required to answer the question.

4. If the data in all three statements I, II and III together are necessary to answer the question.

5. If the data in all the statements, I, II and III even together are not sufficient to answer the question.

**48.** Facing flak over paper leaks, the Central Board of Secondary Education on Monday put in place a system of “encrypted” question papers, which are supposed to be printed by the schools. “CBSE has devised a mechanism of providing encrypted question paper at the examination centres just before the commencement of examination.”

Which of the following can be inferred from the above statement?

I. CBSE has considered encrypted system as safe way to conduct a fare exam.

II. There will be safe and secure room for installation of computers and printers which will have high speed internet connection.

III. Question paper will be provided to centres in the form of zip file which will be password protected.

1. Only I

2. Both I and III

3. Both I and II

4. All of the above

5. None of these

**49.** After a child was murdered in the Laxman school premises in the National Capital Region last week, educationists and lawyers say that a stricter law to regulate schools’ security as well as better monitoring of existing provisions are needed.

Which of the following statement strengthens the given statement?

(I) "Guidelines don't ensure safety. There should be a proper law enacted by Parliament, including the minorities’ schools.

(II)Ashok Pandey, the principal of Ahlcon International School, said that only bringing in more security measures would not be sufficient. “One activity is not sufficient. Security should take center stage and for that, we should renew our efforts to make students safe," he said.

(III)Educationist and former principal of Laxman School Dr. Usha Ram said: “This is quite a safer place. Random inspections by the concerned are common, maybe twice or thrice in a year to ensure good academics and infrastructure in a school, for there security as well like whether CCTV cameras are installed correctly or not.”

1. Only (III)

2. Only (II) and (I)

3. Only (I) and (III)

4. All (I),(II) and (III)

5. None of these

**50.** Study the following information carefully and answer the question given below:

PQRS is a rectangular park such that P is North of R. Q is North of S. Distance PQ is 40m and the longer side is 160m. P is in west of Q.

ABCD is another rectangular park in which A is north of C and B is North of D. Distance AC is 40m and the longer side is 160m. A is in west of B.

PQRS intersects ABCD such that PR intersects AB and CD at K and N respectively. QS intersects AB and CD at L and M respectively (PK=NR similarly AK=LB).

Which of the following statements correctly depicts the directions if one person Karan standing at point D wants to travel to point P?

1. He walks 40m North, turns left and walk 60m again turns left and walks 60m.
2. He travels 40m North, turns left and walks 160m, turns left and walks 40m again turns left and walks 60 m.
3. He travels 40m North, turns left and travels 160m, turns right and walk 40m again turn left and walk 60m.
4. He travels 40m North, takes a left turn and travel 100m, now takes a right turn and travel 60m.
5. Cannot be determined from any of the statements

**ENGLISH**

**Direction (Q. 51 – 55):** In the given questions two columns are given, Column (I) consists some sentences and column (II) consists of words expressing the nature of the given sentences. Match the sentence with corresponding tone. Choose from the options provided below each column the most appropriate one. If none of the given combination is correct, then choose option (E) i.e. 'None of these' as your answer.

**51.**

Column (I)

(A) Security was tightened and restrictions were re-imposed in the Kashmir Valley on the eve of Eid on Sunday.

(B) Weather forecasts show heavy rain could persist for two more days in the State.

(C) She's yet to see all the pieces, but she's excited about how "the collection is very simple, but it's very elegant

Columns (II)

(D) Predictive

(E) Cautious

(F) Dramatic

1. C-F

2. A-D

3. B-D, A-E

4. B-F

5. A-E, C-F

**52.**

Column (I)

(A) I have a very close friend who is from Poona, extremely well-educated

(B) A 27-year-old man, working as maintenance staff, was found dead at his rented accommodation

(C) "Saving the planet will never go out of style" reads the message on one of The Earth Lover's eco-rakhis.

Columns (II)

(D) Gullible

(E) Contentious

(F) Enigmatic

1. C-F

2. A-D

3. B-D, A-E

4. B-F

5. A-E, C-F

**53.**

Column (I)

(A) Go in and make a dosa for me. Can't you see how hungry I am?

(B) Everyone seems to be glued to the screen watching serials one after the other

(C) It's a beautiful day outside, a bird chirping in the distance and children happily making their way to school

Columns (II)

(D) Cheery

(E) Bold

(F) Commanding

1. C-D

2. A-D

3. B-D, A-E

4. B-F

5. A-F, C-D

**54.**

Column (I)

(A) I make a "to-do" list whenever I go out so that I don't miss out any chores

(B) When I eventually got back to Mansukhlal's, I discovered that I had left my passbook on the bank manager's table

(C) There were some customers at the counter, and it took a little time to meet the proprietor

Columns (II)

(D) Informative

(E) Pragmatic

(F) Ironic

1. C-F

2. A-E

3. B-D, A-E

4. B-F

5. A-D, C-F

**55.**

Column (I)

(A) There was a sign on the road which warned us of upcoming crossing.

(B) You didn't take my call! What were you doing?

(C) A traffic cop gets his license suspended because of unpaid parking tickets.

Columns (II)

(D) Informative

(E) Pragmatic

(F) Ironic

1. C-F

2. A-E

3. B-D, A-E

4. B-F

5. A-D, C-F

**Direction (Q. 56 - 60):** In the following questions, one idiom is given followed by three sentences. The given sentences contain a bold phrase. You have to choose in which of the given sentence(s) the idiom can be placed without altering their meaning or making them grammatically incorrect. Choose the corresponding option representing the appropriate replacement as your answer.

**56.****On thin ice**

(i) You're **in an exposed situation** exaggerating your accomplishments on your application—they can check this information you know.

(ii) Don't **wander off** - Just say what you really mean

(iii) I'm **in insecure situation** again with my landlord—the rent was due five days ago and I've been ignoring his calls.

1. Only (i)

2. Only (ii)

3. Only (iii)

4. Both (i) and (ii)

5. Both (i) and (iii)

57.

**Once in a blue moon**

(i) Generally, I refuse to join social media groups. But since I don't want to **be called rude** or reclusive, I break that rule

(ii) The earthquakes hits **rarely** in this part of the earth, we never felt it.

(iii) I am **elated to** receive over 40 messages when I check my phone in the morning,
